

Agenda for the 2001 International CMM/CBM Investment and Technology Symposium/Expo

Tuesday Evening, November 6		
Registration and Reception 17:30 – 19:30		
Wednesday Morning, November 7		
Registration (continued) 8:00 – 9:00		
Opening Ceremony 9:00 – 10:00		
Time	Department	Speaker
9:00 – 10:00	State Administration of Coal Mine Safety Supervision	Mr. Zhang Baoming, Administrator (to be confirmed)
	China National Coal Association, Chinese Academy of Engineering	Mr. Fan Weitang, Chairman/Academician
	U.S. Environmental Protection Agency	Mr. Karl Schultz, Team Leader, U.S. EPA Coalbed Methane Programs
	State Planning Development Commission	Official with Basic Industry Department (to be confirmed)
	Asian Development Bank	Mr. Edu Hassing, Senior Project Officer (to be confirmed)
	China Coal Information Institute	Mr. Li Jinzhu, President
Comprehensive Reports 10:20 – 12:20		
10:20 – 10:50	Policies for Coalbed Methane Resource Management in China	Mr. Zhe Changbo, Ministry of Land and Mineral Resources
10:50 – 11:20	An Analysis of Emerging Technologies and Markets for Coalbed Methane	Mr. Karl Schultz, Team Leader, U.S. EPA Coalbed Methane Programs
11:20 – 11:50	Potential for Commercial Development of Coal Mine Methane in China	Mr. Huang Shengchu, Vice President, China Coal Information Institute
11:50 – 12:20	Challenges in Planning, Developing, and Financing CMM Projects in China	Mr. Raymond C. Pilcher, President, Raven Ridge Resources, Incorporated
Lunch 12:20 – 13:30		
Wednesday Afternoon, November 7		
Investment and Technology 13:30 – 17:50		
13:30 – 14:00	Foreign Cooperation in Coalbed Methane in China, and Procedures	Mr. Zhang Suiian, Professor, China United Coalbed Methane, Ltd.
14:00 – 14:30	Yangquan Mine CMM Power Project: Technical and Economic Evaluation	Mr. Scott Stevens, Vice President, Advanced Resources International Inc.
14:30 – 15:00	Current Status and Outlook of Coalbed Methane Exploration and Development in Shanxi Province	Mr. Zhu Feng, Chief Engineer, Shanxi Bureau of Coal Geology
15:00 – 15:20	Break	
15:20 – 15:50	Investment Opportunities for CMM/CBM Projects in Huainan Mining Area	Mr. Yuan Liang, Chief Engineer, Huainan Mining Group Co.
15:50 – 16:20	Coalbed Gas Reservoir Characterization and Methane Recovery in Australia	Mr. A. Saghafi, CSIRO Energy Technology, Australia
16:20 – 16:50	Coalbed Methane Resources and Development Potential in Coal Mining Areas in Western Guizhou Province	Mr. Xu Binbin, Chief Engineer, Guizhou Bureau of Coal Geology
16:50 – 17:20	Promoting Coal Mine Methane Projects with CDM Mechanism	Ms. Nicole Fabri, Natsource
17:20 – 17:50	Extraction and Use of Coal Mine Gas from Abandoned Mines	Mr. Ren Tingxiang, Senior Research Fellow, University of Nottingham, UK

Wednesday Evening, November 7
Banquet Hosted by the China Coal Information Institute 18:30

Thursday Morning, November 8
Investment and Technology (continued) 8:30 – 12:00

Time	Topics	Speaker/Department
8:30 – 9:00	Investment Opportunities for CMM/CBM Projects in the Yangquan Mining Area	Mr. Li Baoyu, Chief Engineer, Yangquan Coal Group
9:00 – 9:30	Current Status and Outlook of CMM Development and Use in the Fushun Mining Area	Mr. Sui Yulin, President, Shunyang Coalbed Methane Co., Ltd.
9:30 – 10:00	Current Status and Plan of CMM-Fired Power Generation in the Jincheng Mining Area	Mr. Wu Rangkuai, Senior Engineer, Shanxi Jincheng Anthracite Mining Group
10:00 – 10:20	Break	
10:20 – 10:50	Coalbed Methane Recovery by Horizontal Directional Longhole	Mr. Sun Donglin, Senior Engineer, China Coal Research Institute, Chongqing Branch
10:50 – 11:20	The Application of Directional Drilling Technology for Gob Gas Drainage	Mr. Daniel Brunner, President, Resource Enterprise Inc.
11:20 – 11:50	Coalbed Methane Recovery by Gob Well	Mr. Song Shengyin, Professor, China Coal Research Institute, Xi'an Branch

Lunch 12:00 – 13:30

Thursday Afternoon, November 8
CMM/CBM Recovery and Use 13:30 – 17:30

Time	Topics	Speaker and Department
13:30 – 14:00	Description of Coalbed Methane Reservoir Damage and Reservoir Protection During Well Completion and Development	Mr. Kang Yili, Professor, Southwest Petroleum Institute
14:00 – 14:30	Improved Mine Gas Drainage for Better Utilization, Reduced Environmental Damage and Safe Working in Chinese Coal Mines	Dr. David Creedy, Wardell Armstrong, UK
14:30 – 15:00	Coal Mine Gas Project in the Tiefa Mining Area	Mr. Hiroaki Hirasawa, Deputy General Manager, Japan Coal Energy Center, Japan
15:00 – 15:20	Break	
15:20 – 15:50	Introduction of Gas Turbine Based Power Generation Technology	Mr. Zeng Baosen, President, South Gas Turbine Engineering Co.
15:50 – 16:20	A New Technology of Producing Methanol with Coal Mine Methane, and its Technical and Economic Assessment	Mr. Li Wenhui, Associate Professor, China Academy of Sciences, Shanxi Coal Chemistry Research Institute
16:20 – 17:00	Open Discussion	
17:00 – 17:20	Closing Remarks	
	Symposium Ends
